

ABE DOLINGER

FULL STACK WEB DEVELOPER

1540 NW GREENBELT WAY, BREMERTON, WA 98312

a.d@256hz.com

(267) 968-5414

[Github](#) | [LinkedIn](#) | [Blog](#)

Before coding, my background is in product design, startups, and sound engineering. Transitioned to software because I love making deep functionality feel light and effortless. Technically minded, with excellent communication skills. Graduated from the Flatiron School Web Development Immersive in June 2019. Team won 1st place at the 6/13 Flatiron Programming Contest. Aiming to become a Product Designer/Technical Lead

SKILLS

- Ruby / Rails, Javascript / React, HTML / CSS
- Git / GitHub / Postgres / SQLite

TECHNICAL PROJECTS

Recipe Reader

JUN 2019 | A cross-platform mobile app that reads a recipe aloud while you cook | [Githubs: 1, 2](#)

- Designed frontend in React Native for simultaneous Android & iOS development
- Built Rails API/Postgres backend to RESTful standards and deployed on Heroku
- Implemented effortless flow and streamlined interface for instant usability

Green UP! Seattle

MAR 2019 | A recycling quiz game, designed to teach correct bin usage | [Live Link](#) | [Github](#)

- Created Ruby/Rails backend with secure login, ERB/HTML/CSS frontend
- Implemented dynamic, file-based DB seeding to allow for easy editing of quiz answers
- Integrated profiles, team allegiances & a leaderboard to increase user engagement

Open Source PRs - [Google Cloud](#), [Ifme.org's Ifme App](#)

JOB EXPERIENCE

Digital Pavilion Electronics, Brooklyn NY – Lead Product Engineer

APR 2016 - MAR 2019 | Refs: [Dovid Sufrin](#), Head of R&D | [Shmuel Goldman](#), CEO

- Shipped 15 products from concept to retail, in a startup environment. Generated over \$1MM in revenue during my employment for the company.
- Designed interfaces, manufacture & packaging to create a unified look and feel.
- Interfaced between clients, customers, designers, and product to find ideal compromises.
- Promoted to Lead Product Engineer due to my grasp of the full business stack.

Enjyn, Philadelphia PA – Co-founder, COO

AUG 2009 - DEC 2011 | Crowdfunding for artists/musicians | Ref: [Brian Glusman](#), CEO

- Shipped Rails-based MVP platform, successfully raised funds for users.
- Worked with a team to build, design & brand the product and company.

Film Sound Engineer/Product Designer, New York NY – Production Sound Mixer/CEO Abetek

OCT 2006 - APR 2016 | Ref: [Matthew Galkin](#), producer | [Credits](#)

- Designed a microphone accessory [still sold in stores](#).
- Recorded for Oscar-winning documentaries "OJ: Made In America" and "20 Feet From Stardom".
- Deep technical understanding of sound and time-sensitive troubleshooting.
